

# What Heart

## Batillus

Distance  
Cycle full moon  
Boundless return  
Tendrils envelop  
To hold you  
Unfold and follow  
These inverted disciples  
Reside in the hollow  
Open a new marrow  
Written with dying suns  
Oracles set in flame  
Flesh we are bound  
Binding projection  
Stripping ourselves  
Into separate cells  
Pure
