Baby Can We Meet

Junior Kelly

Letters alone won't do, baby, can I get a glimpse of you
Don't tell me no, not this time
Baby girl, I cannot help myself, I want you and I need no one else
Tell me the place, please, tell me the time
Baby, the suspense is killing me, I can't wait forever
And if you let me slip away it wouldn't be so clever, soBaby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need?
Baby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need? Come on, come onNo alibis quit stalling, girl, you say you're hooked
For me you falling, girl, but actions speak louder than words
Is there something you should be telling me?
Is there someone out there who has the key, the key to your heart?
Talking on the phone won't do, I need to see your body
You have me alone so long and that ain't funnyBaby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need?
Baby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need? Come on, come onWay through the summer, through the winter
Through the springtime, through the fall
Through the sleet and the snow, tornado and the storm
I wanna hold you, touch you, girl, I want fi know you by you walk
I wanna be there for you so, girl, enough of this ya talk andBaby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need?
Baby, can we meet so I can light your fire?
Baby, can we meet 'cause I've got what you want
And you've got what you need? Come on, come on
