Rewind

Tontario & Lucas Nord

[Verse 1]
Face to face
Eye to eye
Feel the same you and I
Still I wish I could rewind

[Pre-Chorus]
Setâ€ yourâ€ sails
Float away
Wish Iâ€ could stay so give you space

[Chorus]
Butâ€ I wish I could rewind baby
But I wish I could rewind baby (oh)

See I've been running away
Running away
Running away
See I've been running away
Running away
Running away

[Bridge]
Lost track of time
Drift away
There's nothing left worth keeping pace
Still I wish I could rewind (yeah)

[Verse 2]
Face to heart
You want to know
Tear down your walls to make it sure (babe)

[Chorus]
But I wish I could rewind baby
But I wish I could rewind baby (oh)
(I wish I could rewind yeah)

See I've been running away
Running away

Running away
(I've been running away)

See I've been running away
Running away
Running away

See I've been running away
(See I've been running away)
Running away
(See I've been running away)
Running away
(See I've been running away)

See I've been running away
(See I've been running away)
Running away
(See I've been running away)
Running away
(See I've been running away)

[Outro]
See I've been running away
See I've been running away
See I've been running away (yeah)

See I've been running away
See I've been running away
See I've been running away
