## Desaparecidos

Can't live today off that minimum wage  
unless you sleep on the factory floor  
If there is anything great left in this sorry state  
it was built on the backs of the poor  
So we buy and we sell for your corporate cartel  
and we vote when the contestant sings  
A mind-control mix for our obedience,  
strong sleep-aids and hard energy drinks  
Cause Freedom is not free  
Neither is apathy Slay Goliath, slay Goliath  
The flashmob all held up their phones  
But you cannot predict when the students riot  
And a big machine always moves slow  
So throw your little stone You can't stop us  
We are Anonymous  
You can't stop us  
We are Anonymous  
Expect us  
We know what all of us know You can't stop us  
We are Anonymous  
You can't stop us  
We are Anonymous  
Expect us  
We know what all of us know A half-dozen cops came to seize a laptop  
from a sleeping fifteen year old kid  
They broke down the door  
and discovered some more,  
A hundred million exactly like him  
So we do not forgive and we do not forget  
We are legion, expect us, you'll see  
The righteous will resist,  
underfed eat the rich  
And the data mines finally come clean  
Cause Freedom is not free  
And neither is secrecy You can't stop us  
We are Anonymous  
You can't stop us  
We are Anonymous  
Expect us

We know what all of us know You can't stop us

We are Anonymous

You can't stop us

We are Anonymous

Expect us

We know what all of us know We know what Big Brother did

We're the Tattletale

We'll see your All-Seeing-Eye in hell
