Dear Jamie... Sincerely Me

Hellogoodbye

[Verse]Dear Jamie I've got a letter I would like to send
It's lacking strings of words with punctuation at the end.
But should I trust this dialect?
To convey the right effect?
Dear Jamie I've got some things I'd like to set in pen
I would have used a pencil but lead's just not permanent.
Should I trust my printer's ink?
To express the things I think?
[Chorus]Every page I tried my best to think of something to contest
With inside jokes and all the folks could have much more to say
[Verse]
Dear Jamie this envelope will represent my heart
I'll seal it, send it off and wish it luck with its depart.
This stamp will be every action that carry my affection
Across the air and land and sea
Should I trust the postage due?
To deliver my heart to you?
[Chorus]Every page I tried my best to think of something to contest
With inside jokes and other folks who've got much more to say
Every page I tried my best to think of something to contest
With inside jokes and all the folks could have much more to say
Give you all I can
Flower and a hand
I hope this helps you see
Signed Sincerely me.
