I Still do

Optimus Club

I'm reading your dear John, it says, you're moving on
You need your space, you need some time
And greener grass you seek to find
I saw it from afar, I knew it in my heart
The happiness had gone away, pretended we would be okay
And every time you've made me cry, I gotta sit and wonder why
I love you, I still do, I need you, I always will
I want you to hold me tight, I need you with me tonight, I still do
Why do I hold on? Why can't I be strong?
I know it's time to walk away but still inside I hope and pray
That you'll return to me, my eyes too blind to see
That love should never bring me pain, I know I can't go on this way
And every time you've made me cry, I gotta sit and wonder why
I love you, I still do, I need you, I always will
I want you to hold me tight, I need you with me tonight, I

Oh, I gotta wipe away the tears, I gotta stand and face my fears
I've gotta love myself enough to make it better
The woman that I used to be, I know she's still inside of me
I'll find a way to breathe again, this won't be how my story ends
For every time you've made me cry, I gotta sit and wonder why
I love you, I still do, I need you, I always will
And I want you to hold me tight, I need you with me tonight, I
Oh, every time you've made me cry, I gotta sit and wonder why
I love you, I still do, I need you, I always will
Want you, hold me tight, I need you with me tonight, I
Oh, hey, yeah, every time you've made me cry, it's sad, I gotta know why
Oh, I love you, yes, I need you
Oh, I love you, yes, I do
