

This Is Your Death Song

Everclear

Yeah, you always said that you'd be my best friend
You always swore you would be around
The math class with the boys can't lie
I think of you and it makes me want to die
Yeah, you said you'd be my best friend
Now you're gone
I don't wanna think about it
I don't wanna sing this song
I just wanna be left alone
I would laugh when you said I could have the big life
Yeah, I would laugh when you said I could have it all
I was happy in pain and lost in hell
I could see in you but I can't see in myself
Yeah, you always said I could have the big life
Yeah, but now you're gone
I don't wanna talk about you
I don't wanna sing your song
I just wanna be left alone
I just wanna be left alone
Oh, Oh, Oh, OK
Everything is going be OK
Everything is going be OK
Everything is going be OK
Right now everything sucks
Whoa
I don't wanna talk about you
I don't wanna sing your stupid song
Please don't go, please don't go, please don't go
Please don't go when you get home
I don't wanna sing this song anymore
I just wanna be left alone
I just wanna be left alone
I just wanna be left alone
I just wanna be left alone
I just wanna be left alone
I just wanna be left alone
Someday
I just wanna be left alone
Everything's gonna be OK

I just wanna be left alone
Everything's gonna be OK
Someday
Someday
