Future Daze

The Tony Rich Project

Everybody, the party starts right now
The fire you burn today leaves residue for tomorrowWhy don't we just find someway to make it all be better?
You and I can change the way this world, we're all together
If you could find that could find a cause
If you could find that if you could make it known
If you could find that you could change the world
If you could find that, if you could be the one to make all thatWould you change your ways
Or would you change the ways of today?
Let your future be known
Come along, drop a phone get highThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manYou are just one victim of the governments whole plan
We are the future one nation are we all together
I bring it straight, I stick it right in your face
I ain't gone have my brother feeling the vagues
Of the business economical painsI ain't gone but he last one in the race
With the technology and mechanical phase
One day if we could only relate
Would you found would you raise your hands
Tell everybody the future's at handThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manShout it outta, baby
Shout it all over the world
Shout it outta baby
Shout it all rationalThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manThe future daze, I said it's all a blaze
You don't know your name, the future daze
You got the chip in your head
And now you think you're the manTake your political stand, papa man
