Troubled Mercy

Ingram Hill

Mercy fights a little war again
Always the one that tried so hard, but she couldn't win
To live what you're feeling, to hate what you feel
No one should live this way
That's all over, it's all over now
You never thought that you could feel this
Forever lonely was a better way
You make this world to fall apart
But you're more than you thought you could be
I won't leave you Troubled Mercy, yeah, yeah
Mercy tried to make things right again
But the dark is where she hides to cradle the sin
Hard to know what is real when you beg and you steal
But you don't wanna be this way
That's all over, it's all over now

You never thought that you could feel this
Forever lonely was a better way
You make this world to fall apart
But you're more than you thought you could be
I won't leave you Troubled Mercy
Your innocence is gone
You don't know where you lost it
Well, somehow it all went wrong
But it won't last long
You never thought that you could feel this
Forever lonely was a better way
You make this world to fall apart
But you're more than you thought you could be
I won't leave you Mercy
I won't leave you Troubled Mercy
