

# Spin, Spin, Spin

**H.P. Lovecraft**

Spin, spin, spin my little darling  
Spin, spin, spin my little babe  
Stay in the garden; let your mind tarry  
Dance to the sunlight, smell the strawberry. Spin.  
My little darling, spin. Turn, turn, turn my little darling  
Turn, turn, turn my little babe  
Seeing yourself as you climb through the meadow  
Seek out the answer, follow the bright glow. Turn.  
My little darling, turn. Turn, turn, turn my little darling  
Turn, turn, turn my little babe  
Watching the colours change with the season  
Discovering truth while searching for reason burns  
My little darling, turn. Spin, spin, spin my little darling  
Spin, spin, spin my little babe  
Stay in the garden; let your mind tarry  
Dance to the sunlight, smell the strawberry. Spin.  
My little darling, spin.
