

Damn

Lewis Taylor

You overtake my soul
This old heart's just lost control
You know I've had my fill
You make me love you against my will
I just wanna let you know
I don't like it when you come around
'Cos it's you that makes my love come down
Damn I'm in love with you
Never wanted to
Oh yes, I don't know where my mind has gone
Don't know right from wrong
I really didn't want to baby
But damn I'm in love with you
I wait every night for you to call
But honey I know you might not come at all
It makes no difference where I stand
At the end of the day your wish is my command
I just wanna live my life
I don't wanna have to think of you
Oh how can I, I do everything you tell me to
Damn I'm in love with you
Never wanted to
Oh yes, I don't know where my mind has gone
Don't know right from wrong
I really didn't want to baby
But damn I'm in love with you
I'm in love with you
I never really wanted to
I don't know right from wrong
I don't know where my mind has gone
