Back to the Grave

Howler

What goes on?
When youre underground
When youre digging my grave
When Im no longer around
Where will you be, in 2023?
In someone elses arms
But that will not be me
I want someone to
Take me home tonight
Well go back to the grave
Before we turn out the lights
I want someone
To try and break my heart
So when theres nothing left
There will be nothing to start
