## Goapele

Awake in bed at 4 a.m.  
Awake in bed 'cause lately sleep ain't been my friend  
Dreams leave me with no happy end  
Instead it all keeps playing and repeating And even though I might complain  
You know I feel the same old way about you, babe  
I'll love you till the very end  
I love you, I can't see my life without you We might be a long way from heaven  
But I won't give in, no, not like this  
I feel it is my Saturn return  
There's a lot we could win, just not like this I see us pass the sleepless nights  
I see us pass the silent fights and arguing  
We'll make it through the distant phases  
We'll make it through the stomach aches and quiet tears Somehow we're back to here again  
Somehow we're back to question me or believing  
There's never been a silent end  
There's never been a mountain span without you We might be a long way from heaven  
But I won't give in, no, not like this  
I feel it is my Saturn return  
There's a lot we could win, just not like this Silky soft words are forgotten but you treat me  
Come inside, I'll keep you warm  
Though it hurts me, leaves me torn  
Every time you lend a hand  
Our love outlasts the storm again, again, again We might be a long way from heaven  
But I won't give in, no, not like this  
I feel it is my Saturn return  
There's a lot we could win, just not like this Yes, we might be a long way from heaven  
But I won't give in, no, not like this  
I feel it is my Saturn return  
There's a lot we could win, just not like this
