

Disappear

Army Of Anyone

Let's not go outside, too much work's in here
Heaven can't help us
Watch the walls knocked down, Jesus lost his crown
Heaven won't help us Don't look, don't look at me
I watch how the world works in here
I love how the world works in here, yeah I try to disappear, can't you see what I'm sayin'?
I try to disappear, can't you see what I'm sayin'? Hearts melt with lies, feeling ostracized
They won't just help us
Morning makes us cry, singing last goodbyes
No one can help us Don't look, don't look at me now
I watch how the world works from here
I love how the world works from here, yeah I try to disappear, can't you see what I'm sayin'?
I try to disappear, can't you see what I'm sayin'? I try to disappear, can't you see what I'm sayin'?
I try to disappear, can't you see what I'm sayin'? I try to disappear, can't you see what I'm sayin'?
