Come Fly With Me

Keshia Chante

Come with me, let me lead the way
I will be the one that stands beside you
We could be anything we dream
As long as we keep dreaming it togetherWe'll ride the wind and soar above the clouds
Where we'll be freeCome fly with me, to a place where love has never been before
And you know, it'll just be you and me
Fly with me to a world where no one's ever been before
And you know we won't ever have to leave, come fly with meSo here we are, where time stands still
And a perfect moment, it can last forever
'Cause we both saw, the same shooting star
We made a wish and here we are togetherAs we ride the wind and soar through open skies
Now we are freeCome fly with me to a place where love has never been before
And you know, that it's only you and me
Fly with me to a world where no one's ever been before
And you know we wont ever have to leave, fly with meSo freeWont you come fly with me to a place where love has never been before
And you know, it'll just be you and me
Fly with me to a world where no one's ever been before
And you know we won't ever have to leave, fly with me
