# What's in a Name

## Late Night Alumni

What's in a name, what's in my sleepy eyes half the time?
If you would have asked how I was, I'd have said I'm just fine.
I know it's best if I move on; let you swim in the wake of this song.
If I could've seen to this end, I'd do it all over again.You're like the sweetest, softest autumn I've ever seen.
I'm all nostalgic and genuinely weak in the knees.
I know it's best if I move on; let you swim in the wake of this song.
If I could've seen to this end, I'd do it all over again.Which one of us has come undone? It's just one in the same.
If it was you and never me, I'd tell you so and I'd say
I guess it's a sin to lead you on, but any way that I say it, it sounds wrong.
If I could've seen to this end, I'd do it all over again.
