

# Jams Run Free

## Sonic Youth

[Kim]

Blasted earth

All immersed

Golden cave

The blondes come first I love the way you move

I hope it's not too late for me

It's too good on the sea

where the light is green,

where the light is green Jagged brain

Slow refrain

We love the jams,

and jams run free I love the way you move

I hope it's not too late for me

It's too good on the sea

where the light is green,

where the light is green
