

# Sleeping At Night

## Caught a Ghost

When you smile it's like you're waiting for something  
To spring from the back of your mind,  
When you speak it's like you're searching for nothing  
Nothing comes quicker than nothing you'll find  
You're the kind of motionless creature,  
Bites at the heels of the needless seekers  
Mouth moves along with the meaningless speaker,  
Swinging your fists, getting weaker and weaker.  
Chorus:  
I hope you make it alright,  
I hope you make it alright,  
Make your mind up, you get right up  
And march to the mouth of the meaningless line up.  
I hope you make it alright,  
I hope you make it alright,  
You can sell dust and steal in the daylight,  
For all that I care just as long as you're sleeping at night.  
Kindly tell me what you'd like me to say,  
I will say it for you and get out of your way.  
Settle down 'cause you're starting to scare us  
Looks like you're carelessly wasting away.  
Cashing in on what you're believing,  
Trying to get up on the moveable feasting,  
Mirrors in the morning you're becoming a beast  
Making those ends keeps you moving at least.  
Chorus:  
I hope you make it alright,  
I hope you make it alright,  
Make your mind up, you get right up  
And march to the mouth of a meaningless line up.  
I hope you make it alright,  
I hope you make it alright,  
You can sell dust and steal in the day light,  
All that I care just as long as you're sleeping at night.  
[Chorus:]
