

Summerbreeze

Smilla

It might have been a while
Since you've been loved
Like you should be loved
It might have been a while
Since you've been kissed
Like you should be kissed
In tender loving arms
Might be something you miss
Well summerbreeze is blowing through your window
And summerbreeze is blowing through your hair
And something in your eyes that you cannot disguise
Don't tell me it ain't there
It might have been a while
Since you've been loved
By one who really loves you
It might have been a while
Since you could trust
That someone really cares
When people like us
Meant to go 'round in pairs
Summerbreeze is blowing through your window
And summerbreeze is blowing through your hair
Something in your eyes that took me by surprise
Don't tell me that it ain't there
