Leave Me

An Horse

it frustrates me
That I don't have the words to explain to you what I'm feeling now
I'm not moved that much but what I just heard moved me to the left
More to the left
I don't know what put me there
If I had a guess then your voice would top this listLeave me, Leave me beI don't need a bed to hide behind, I'm laying by myself
But your sheets are on my mind
I don't know who put them there
But if I had a guess your voice would top this listLeave me, Leave me beI don't want to remember summers in December
And I don't want to remember last summer in JuneLeave me
