

Sex 4 Suga

Common

[Chorus:]

Girl you've been touched by the forces of nature
I'm just tryna motivate ya electricity is definitely there
I got shocked when I touched your hair
Sex 4 Suga
Suga 4 Sex [4x]

Girl you've been touched by the forces of nature
I'm just tryna motivate ya electricity is definitely there
I got shocked when I touched your hair
Sex 4 Suga
Suga 4 Sex [4x]

Girl oh you look ugh
Your the type of thick that I cant give up
What's your name I can't hear ya
Would it be alright If I call you Suga
You can call me smokey I'll be the bear
Your smell is sexy its all in the air
What ya got girl its so unfair
I like the way you move so keep it right there
Or you can do what you want to do
I'm just glad I'm in front of you
But I don't mind bein behind
Cause Imma touch you where the sun don't shine
Got my hand on the money while you on the grind
In tune with you cause you so fine
And when you wine its genuwine
Get on my vine and we can climb

[Chorus]

Heard you use to dance at Magic city
The other girls couldn't been half as pretty
You look so sexy when you grab them (ohhhhhh!!) oh yes
Suga good Lord you've been blessed
If this is a sin I must confess
The way you dress is like birdless
I guess you don't mind bein undressed
I like the way its going down

Hips are moving all around
Round and round upside down
I once was lost but now I'm found
Sweet heart can you give me another round
Sweating like you losing pounds
Touch the ground make it sound
Suga oh suga you wear the crown

[Chorus]

All that dancin' suga make me want to do ya
The way you move and shake it
Ah ah on the dance floor
Wanna touch and feel ya we can get familiar
The way you move and shake it
Make me want you some moooree!
Oh you making my nature rise
We can do more then fantasize
Lets do the do me and you
We can wooh wooh wooh! and whoopti woo
Your physique brings out my freak
I like the way your body speaks
I want some of you everyday of the week
Suga suga you ain't nothing sweet

[Chorus]
