

# Impossible Winner

## The Dead Weather

I am the desert sun  
The ever endless sea  
Not a drop of blue or white  
Is where it shouldn't be  
I'm a wheel going round  
In a mirror house  
I made no way out  
But you have feels about  
Holding on  
To everything has come and gone  
I need distraction  
Gimme up from in between  
Everything I've ever seen  
Don't be long  
I'm no beginner  
I'll be here every night  
My name up in lightsThe impossible winnerI am the wilderness  
Dark end of the street  
Coast of infinity  
Far as I can see  
I'm a white noise, son  
Thorn upon a thorn  
But when that whips around  
No part of any storm  
Holding on  
To everything that has come and gone  
I need distraction  
Gimme up from in between  
Everything I've ever seen  
Don't be long  
I'm no beginner  
I'll be here every night  
My name up in lightsThe impossible winner  
The impossible winnerDrag my body through the sand  
Drag my body down the road  
Drag me up to the air  
Turn around  
Here I am  
Drag me down, down low

Down, down small  
Makes no difference  
Turn around  
Here I am  
Holding on  
To everything that's come and gone  
I need distraction  
Gimme up from in between  
Everything I've ever seen  
Don't be long  
I'm no beginner  
I'll be here every night  
My name up in lights  
The impossible winner  
The impossible winner  
The impossible winner
