

Drink Some Beer

Fear

Yeah, my eyes are red, my dad ain't rich, my mom, well she's a first class bitch, I got a shitty job, I live in fear,
just wanna play my guitar and drink some beer, I just wanna drink some beer, I just wanna drink some beer,
well booze is cool but pot's a crime whos bright idea was that and I just wanna write songs that's weird, snap
the bong, drink some beer, I just wanna drink some beer, I just wanna drink some beer, come to the Chase Club,
to the point now blow me while I roll a joint, front to back, in your ear, you can kiss my ass while I drink some
beer, I just wanna drink some beer, I just wanna drink some beer, I just wanna drink some beer, I just wanna
drink some beer, I just wanna drink some beer!
