

No Can Do

Sugababes

I've been thinking about
How you've been messing around
Why do you get your kicks
From hurting me? I've tried on giving you up
But now it's time to stop
'Cause boy, I see
That you're no good for me If you really wanted
My love so desperately
Then you should have taken time
And try to rescue me Sorry, no can do
'Cause you're never really gonna make it better
So forget forever Now it's time to face it boy, we're through
'Cause I ain't got time for your conversations
So sorry, no can do Sorry, sorry sorry, sorry Don't try to sweet talk me no more
'Cause I've heard it all before
What makes you think
I'd want you back again? And now my mind has been
Made out and I have had enough
You've had your chance
And now this is the end You could've handled
Things a little differently
But now you're on your own
And you'll be missing me Sorry, no can do
'Cause you're never really gonna make it better
So forget forever Now it's time to face it boy, we're through
'Cause I ain't got time for your conversations
So sorry, no can do It don't matter what you say
'Cause I've gone my separate way
There is nothing you can do
To make me change my mind It don't matter what you do
'Cause I'm done with loving you
Don't you bother turning back
The hands of time Sorry, no can do
'Cause you're never really gonna make it better
So forget forever Now it's time to face it boy, we're through
(Face it boy, face it boy, through)
'Cause I ain't got time for your conversations
(No)
So sorry, no can do

(Do)Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my ownDon't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
(So sorry no can)
It don't mean a thing 'cause I'm on my ownDon't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
(No, no)
Sorry no can do
