No Can Do

Sugababes

I've been thinking about
How you've been messing around
Why do you get your kicks
From hurting me?I've tried on giving you up
But now it's time to stop

'Cause boy, I see

That you're no good for meIf you really wanted

My love so desperately

Then you should have taken time

And try to rescue meSorry, no can do

'Cause you're never really gonna make it better

So forget foreverNow it's time to face it boy, we're through

'Cause I ain't got time for your conversations

So sorry, no can doSorry, sorry sorry, sorryDon't try to sweet talk me no more

'Cause I've heard it all before

What makes you think

I'd want you back again? And now my mind has been

Made out and I have had enough

You've had your chance

And now this is the endYou could've handled

Things a little differently

But now you're on your own

And you'll be missing meSorry, no can do

'Cause you're never really gonna make it better

So forget foreverNow it's time to face it boy, we're through

'Cause I ain't got time for your conversations

So sorry, no can doIt don't matter what you say

'Cause I've gone my separate way

There is nothing you can do

To make me change my mindIt don't matter what you do

'Cause I'm done with loving you

Don't you bother turning back

The hands of timeSorry, no can do

'Cause you're never really gonna make it better

So forget foreverNow it's time to face it boy, we're through

(Face it boy, face it boy, through)

'Cause I ain't got time for your conversations

(No)

So sorry, no can do

(Do)Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my ownDon't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
(So sorry no can)

It don't mean a thing 'cause I'm on my ownDon't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
(No, no)
Sorry no can do
