Star No Star

Jack Off Jill

cannot distance myself
You were the one who believed
that only half of a girl
half more than you could deceiveI watch your face on TV
All that I am turns to fear
When you're the boy that I want
I will be waiting right hereI don't know what to believe
Sew up the sore make it fake
When you're the boy that I want
I'll be the girl that you hateYou end up dead in the end
Star no star
You end up right here my friend
Star no star
We end up dead in the end
Star no star
We end up right here my friend
Star no starI can not distance myself
You were the one who believed
that only half of a girl
half you but never half meI see your face on the street
Burnt hands but features so clear
When I'm the girl that you want
I will be waiting right hereI don't know what to believe
peel all the scars from our way
When you're the boy that I want
we will have one perfect dayYou end up dead in the end
Star no Star
You end up right here my friend
Star no Star
We end up dead in the end
Star no Star
We end up right here my friend
Star no StarI am so distant myself
I guess I never believed
that you could take it away
and I'd have no time to grieveI don't believe in TV
I don't believe in the fear
When you are searching for stars
You will be looking right hereYou end up dead in the end

Star no Star
You end up right here my friend
Star no Star
We end up dead in the end
Star no Star
We end up right here my friend
Star no StarWe end up right here my friend
Star no Star
We end up right here my friend
Star no Star
We end up right here my friend
Star no Star
