

# First Star Tonight

## Masked Intruder

First star tonight  
Maybe if I make a wish just right  
Could I get a lady by my side  
To make all my grey days bright?  
Make her eyes beam like the sun  
Deeper in color than a new pair of Chucks.  
Make them so they only see me  
Then maybe hook it up so we could meet Underneath a moonlit oak tree  
Swaying in the soft Autumn breeze.  
Let her see me down on my knees, all alone.  
Could it be love at first sight  
Maybe if I make a wish just right  
First star tonight?  
First star tonight  
I don't wanna be alone for my whole life.  
Could I get a lady by my side  
To make all my wrong things right?
