

# Precious Love

## How to Dress Well

You say you "wanted to relax"  
Say you "want to live this right"  
But you know I can't hold back, baby  
"On and on over again?"  
This is the question you must ask yourself  
But I see what I want and I see what I got and it's a perfect match whoa ohhh What would mean to relate? To  
relate, to relate, to really relate?  
When all the symp- all the sym- frustrate -toms symptoms frustrate?  
We're on a weird adventure, made to meet, so no, don't go  
Just wait just wait just wait just wait Come on be my precious love  
You said you'll wait so wait even when you wanna go, you'll make it safe for me to stop  
Be my precious love You say you "wanted to relax"  
I know you want to do this right  
You say that I'm holding on too tight  
But you say with regret that "it goes too fast"  
Ya it goes too fast!
