

# Secrets and Lies

Marc Vormawah

Transformation, we become someone else  
Dislocation, as we get so far from ourselves  
My condition's getting worse I can't do without  
Addiction is the lust that won't let you out  
All your secrets and your lies  
Walk fast out of burning buildings  
Kill youth with easy listening  
You gotta keep terror at a healthy distance  
It's fine from time to time  
Conversations are something of the past  
Investigations of everything that holds us back  
Your contrition is deserved, you'd like to disappear  
Find a new home for your salty tears  
All your secrets and your lies  
Walk fast out of burning buildings  
Kill youth with easy listening  
You gotta keep terror at a healthy distance  
Godspeed to sustain illusions  
It's fine from time to time  
It's fine was the land mines land mines  
Walk fast out of burning buildings  
Kill youth with easy listening  
Godspeed to sustain illusions  
Godspeed to sustain illusions  
Walk fast, walk fast  
Gotta keep terror at a healthy distance  
Godspeed  
You gotta keep terror at a healthy distance
