

# Lonesome, I Know You Too Well

[Shawn Mullins](#)

It's 3 a.m. and the snakes have moved in  
I'm playing to 4 drunks and me  
But the beer is cold and the memory is old  
And the lights are so bright I can't see And lonesome, I know you too well  
You ring in my ears just like a bell  
And your hollow like a dark empty well  
Lonesome, I know you too well Now time, it stands still and spins like a wheel  
Whenever I see her around  
But she doesn't know and I'll never show  
There's too many eyes in this town And lonesome, I know you too well  
You ring in my ears just like a bell  
And your hollow like a dark empty well  
Lonesome, I know you It's 3 a.m. and the snakes have moved in
