

# My Will Be Done (feat. Mats LevÃ©n)

Gus G.

theres nothing i could say 2 u  
nothing i could ever do  
to make u see  
what u mean to meall the pain the tears i cried  
still u never say goodbye  
and now i know  
how far you'd go  
i know i let u down  
but its not like that now  
this time i'll never let u go  
i will be  
all that u want  
and gather self tgether  
cuz u keep me from falling apart  
all my life  
i'll be with u forever  
to catch u through the day  
and make everything okayi thought that i had everything  
i didn't know what life could bring  
but now i see  
honestly  
your're the one thing i got right  
the only one i left inside  
now i can't breath  
cuz u here with me  
and if i let u down  
i'll turn it all around  
cuz i would never  
let u go  
i will be  
all that u want  
and gather self tgether  
cuz u keep me from falling apart  
all my life  
i'll be with u forever  
to get u through the day  
and make everything okayits without u  
i cant sleep  
i am not gonna ever ever let u leave

you're all i got  
you're all i want  
yeah  
and without you  
i dont know what i do  
i could never ever live a day without you  
here  
with me  
do you say  
you're all i need and i will be  
all that you want  
cuz u keep me from falling apart  
my life  
forever  
and make everything okay  
i'll be  
and get myself together  
and all my life  
u know i'll be with u forever  
to get u through the day  
and make everything okay
