Shiny Penny

I think I've hit the deep end
I think I have lost my way
Because I can't break the feeling
That I'm missing every single thing
You're the only one I want now
I want to give you everything
But even in our best times
There's something standing in the way 'Cause if I didn't need something more
There'd be no tears on your face
And if I didn't need something more
I would be yours today
But I need to wait You tell me all your secrets
You pour your heart into my brain
But I'm losing a connection
And feeling emptier with every day
Tell me this is just a moment
I wish I knew that it would go away
'Cause I don't wanna see the ending,
I don't want our love to go to waste 'Cause If I didn't need something more
There'd be no tears on your face
And if I didn't need something more
I would be yours today
But I need to wait Yes I need to wait Wish I could explain this
'Cause I feel it bursting in my mind
My heart or our love
I don't know which one to sacrifice 'Cause I need to wait
Yes I need to wait
I need to wait 'Cause I need to wait
I need to wait
