

# Tomorrow Is Yesterday

## The Arcana

I feel tomorrow is yesterday  
there's no escape for me today  
tell me, I don't know

You always brushing your long blonde hair  
making waves in the air  
tell me I don't know

Maybe one day you'll find the time rushing through your mind  
still I will wait a while feelings may untwine  
is life unkind, tell me I don't know

See I am holding out my hand  
so you'll understand  
tell me, I don't know

Run let your spirit wonder free  
they'll be no more you and me  
tell me, I don't know

Maybe one day you'll find the time rushing through your mind  
still I will wait a while feelings may untwine  
is life unkind, tell me I don't know

Cut all the ribbons from your hair  
now you are here, but I am there  
tell me, I don't know

There paradise I hope will loom  
happiness have I found in Jun  
tell me, I don't know
