

# Tint Of Blue

Bee Gees

A tint of blue, deep down inside my heart  
Each time I see you, it would take a lot  
To ease my pain from all these chains  
A tint of red, each time I see you with another  
Just because I was your lover, jealous I  
I get so angry, I could cry  
A tint of blue, why do you make me feel so sad?  
Why do you leave me feeling bad?  
The way I do, a tint of blue  
A tint of red, each time I see you with another  
Just because I was your lover, jealous I  
I get so angry, I could cry
