Mark

Refused

Bottled up inside, angst ridden
The pain strikes
Scars badly hidden
Effect of love, easy to seeJust a normal kid
Just like you and me
Feels unclean, undeserved
Wipe away the tears, unheardHow much pain can you put me through?
How much pain left in anger and shameNo witness, just pain
Hatred boils but theres still love
This hurts and whos to blame?
Why did it happen? Undeserved
