

Qualified

Michael Grimm

Forget about your ex he wasn't good enough
Only when he called is when the spot got rough
Girl I need to know if I qualify
You can call my ex just to verify Forget about your ex she wasn't down for you
You know I got your back 'cause I'm feelin' you
Tell you right now I qualify
Come at me for real, all games aside Baby just relax, see you don't have to ask, I got niggas flippin' packs
I'll give you finer things, like carats in your ring
I'll take you to the lot, which one you want to cop, the seven or the drop
Just tell me what you need , it ain't about the G's See money ain't the thing, it ain't about the rings
And those artificial things 'cause all it really brings, is a lot of pain.
What I need is trust, a little bit of lust, so that every time we touch
I feel it in your kiss nothing means more than this Forget about your ex he wasn't good enough
Only when he called is when the spot got rough
Girl I need to know if I qualify
You can call my ex just to verify Forget about your ex she wasn't down for you
You know I got your back 'cause I'm feelin' you
Tell you right now I qualify
Come at me for real, all games aside Forget about your ex he wasn't good enough
Only when he called is when the spot got rough
Girl I need to know if I qualify
You can call my ex just to verify Forget about your ex she wasn't down for you
You know I got your back 'cause I'm feelin' you
Tell you right now I qualify
Come at me for real, all games aside I heard about your ex, and how she used to flex
With the platinum on her neck, how you put her in a Lex
Refusing her beggots, I know what she needs
How you couldn't believe she was with another kid
All up in the club, blowing up the spot, all up in the Marriott What? Anyone could tell, she took me through
some hell
Wouldn't even post bail, having you around, I think I finally found
A lover I can feel, someone to keep it real, so baby let's chill
Just let me know you care, we can take it there Forget about your ex he wasn't good enough
Only when he called is when the spot got rough
Girl I need to know if I qualify
You can call my ex just to verify Forget about your ex she wasn't down for you
You know I got your back 'cause I'm feelin' you
Tell you right now I qualify
Cause I got all the love you need Forget about your ex he wasn't good enough

Only when he called is when the spot got rough
Girl I need to know if I qualify
You can call my ex just to verify Forget about your ex she wasn't down for you
You know I got your back 'cause I'm feelin' you
Tell you right now I qualify
Come at me for real, all games aside Can you qualify
Come and love me right
Stay with me tonight
Could you be the one for me? Can you qualify
Come and love me right
Stay with me tonight
Could you be the one for me? Can you qualify
Come and love me right
Stay with me tonight
Could you be the one for me? Can you qualify
Come and love me right
Stay with me tonight
Could you be the one for me? Can you qualify
Come and love me right
Stay with me tonight
Could you be the one for me?
