Highway 101

fullbirdmusic

Take a drive baby up the coast, yeah highway 101
I'll pass Ventura and Santa Barbara too, just as fast as my motor runs
Gotta pocket full of memories, some happy and some are sad
Gotta girl standin' by my side through the good times and the badListen to the boulevard, listen to the falling rain
I believe in love now, with all of it's joys and painsSick boy, sick girl, looking nice dressed up on a Saturday night
Take a walk downtown for a while and chase the pale moonlight
I can still hear the mission bells and the train rollin' through your town
Gonna leave this world behind, we're Southern California boundListen to the boulevard, listen to the falling rain
I believe in love now, with all of it's joys and pains
Follow the palm trees under the California sun
I believe in love now, I believe in love againListen to the boulevard, listen to the falling rain
I believe in love now, with all of it's joys and pains
Follow the palm trees under the California sun
I believe in love now, I believe in love again
I believe in love again
