Wasted Love

Marie Serneholt

So you say there's nothing wrong
Then tell me why I don't believe you
Maybe you sound just to sincere
Maybe I just saw right trough youCause who's the girl
Walking there by your side
The way she smiles I just knowI wasted love
I wasted love
I wasted all my emotions on you
I wasted loveSo here the walls come tumbling down
A heart's breaking into a thousand pieces
I might be damaged but I'll be Ok
Everything happens for a reasonWho's the girl
Walking there by your side
The way she smiles I just knowI wasted love
I wasted love
I wasted all my emotions on you
I wasted loveEverything happens for a reasonWho's the girl
Walking there by your side
The way she smiles I just know(I can tell by the way you smile, yeah)
I wasted love
I wasted love
I wasted all my emotions on you
I wasted love
