

# Wasted Love

[Marie Serneholt](#)

So you say there's nothing wrong  
Then tell me why I don't believe you  
Maybe you sound just to sincere  
Maybe I just saw right through you Cause who's the girl  
Walking there by your side  
The way she smiles I just know I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love So here the walls come tumbling down  
A heart's breaking into a thousand pieces  
I might be damaged but I'll be Ok  
Everything happens for a reason Who's the girl  
Walking there by your side  
The way she smiles I just know I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love Everything happens for a reason Who's the girl  
Walking there by your side  
The way she smiles I just know (I can tell by the way you smile, yeah)  
I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love
