

Only an Ocean Away

[Sarah Brightman](#)

I see a shadow every day and night
I walk a hundred streets of neon lights
Only when I'm crying
Can you hear me crying? So many times you always wanted more
Chasing illusions that you're longing for
Wish I wasn't crying
Oh, can you hear me crying? There's an ocean between us
You know where to find me
You reach out and touch me
I feel you in my own heart More than a lifetime
Still goes on forever
But it helps to remember
You're only an ocean away Was there a moment when I felt no pain?
I want to feel it in my life again
Let it be over now
Oh, oh over now 'Cause I remember all the days and nights
We used to walk the streets of neon lights
Oh, I want you here with me
Oh, be here with me There's an ocean between us
You know where to find me
You reach out and touch me
I feel you in my own heart More than a lifetime
Still goes on forever
But it helps to remember
You're only an ocean away So many times you always wanted more
Chasing illusions that you're longing for
Wish I wasn't crying
Can you hear me crying? There's an ocean between us
You know where to find me
Just reach out and touch me
I feel you in my own heart More than a lifetime
It seems like forever
But I'll always remember
You're only an ocean away
Only an ocean away
