

I Am

Further Seems Forever

I am the water
I am waves crashing on to you
I am the blank wave
I am the madness the loss the dark
The hunt the cage the race
I am rejection I am redemption
I am desire for obligation
I am forever but I can be never
If that's what you want
I am the desert I am oasis
The strength

The weakness for arguments sake
I am one step closer for you
Please tell me when you're through
Cause I may not be through with you
Your loss to sustain
But I will remain and true to form
If this were
The last breath I ever took
Would you take the time to look
And would you know
You could protect me
But you will kill me
When you're through
