Use Your Head

Money Mark

Set in overdrive, makin' money on the side
Lookin' for some dirty action
Leave 'em on the floor, leave 'em wantin' more
Use it for the prime reactionWorkin' like a dog, tired, cold and bored
Stimulate me to satisfaction
Alcohol and sluts pull me from my rut
Second only to the attractionYou got a lot to learn
Your head's up your ass
You got a lot to learn
You got no class, no classTake me to the top, never never stop
So pretty what's your name, where ya from?
I see, you like the band, don't leave me with my hand
Stick around, I'll throw you a boneNo classCrack another beer, sit on over here
What I need I can't do alone
Think that I'm in love, sittin' in your glove
What's your name, here I come out, I'm doneWhy don't you use your head?
