

Fyah Fyah

Selah Sue

Sometimes, it is not that easy
To understand, oh yeah I know
See I, I just have those moments
When the darkness inside, takes over control And then I'm chained and locked inside my head
But it will never be the same again
After I'll say fyah fyah But it's I, I'll just have to face it, and this is who I am, and nothing more
So now stop whining Sally, and just get yourself together, and sing the fucking song I'll just have to face the
dark inside my head
'Cause there is nothing else to do, yeah
But it will never be the same again
After I'll say fyah fyah Fyah fyah what shall I do mighty dread
It's the killer of my mental state, yeah
Be strong, no I will not go on, let it get me, no way
man, I just can't do that
'Cause I'm a fighter, I'm not a big cryah so big it up everyone trying to face their mess
big it up everyone trying to face their mess Fyah fyah what shall I do mighty dread
It's the killer of my mental state, yeah
Be strong, no I will not go on, let it get me, no way
man, I just can't do that
'Cause I'm a fighter, I'm not a big cryah so big it up everyone trying to face their mess
big it up everyone trying to face their mess Yeah
