

Chrysalis Heart (feat. Stef Lang)

Delerium

I have walked guarded on the path to love
Feared every curve into my virgin trust I oooh
Hallelujah(Chorus)
If all of your words
Should tear me apart
May all of the angels lead me to shelter
Surrendering fear
Escaping the dark
Into the arms of a great protector
My chrysalis heart (X3) With every tide I may be washed away
Drifting forever without innocence I oooh
I oooh
I doooo
Hallelujah(Chorus)
If all of your words
Should tear me apart
May all of the angels lead me to shelter
Surrendering fear
Escaping the dark
Into the arms of a great protector
My chrysalis heart (X3) I have walked guarded on the path to love
I doooo
Feared every curve into my virgin trust
Hallelujah(Chorus)
If all of your words
Should tear me apart
May all of the angels lead me to shelter
Surrendering fear
Escaping the dark
Into the arms of a great protector(X5)
My chrysalis heart
I oooh I oooh (X2)
Hallelujah
