

# Dodging Invisible Rays

## Guided by Voices

Slow down to a cool crawl  
Until your knees weak until your legs fall  
Slow down to a cool crawl  
Don't give your feet speed  
Until the? end calls?Chorus: In the first place  
Who could blame you  
In the second place  
You're insane  
I get the feelin' that  
You're just circling aroundSlow down to a cool crawl  
Until your beauty fades until your muscles fall  
Slow down to a cool crawl  
Until your breath goes until a hush falls  
Chorus (replace "get" with "like")  
Repeat first verse  
Chorus
