

Here to Stay

[Lenka](#)

I don't know anymore
I don't know what I've been fighting for
But something inside me won't go quietly And I could be anywhere
'Cause we're all breathing the same air
It goes inside and makes me feels alive
And all I can say is, all I can say I am here and I will be
Following my own way forever and a day
I am here and I'm here to stay Oh, we are here and we will be
Following our own way no matter what you say
We are here and we're here to stay
We are here to stay No matter where you roam
Anywhere you lay your heart's your home
Stand your ground if they push you down
Because all you can say is, all you can say We are here and we will be
Following our own way, no matter what you say
We are here and we're here to stay Oh, we are real and we feel it
When you deny us or when you get tired of us
We are here and we're here to stay
We are here to stay I never knew when enough was enough
Or whether to stay when the going was tough
But I won't let a little heart be afraid
And all I can say is, all I can say I am here and I will be
Following my own way forever and a day
I am here and I'm here to stay Oh, we are here and we will be
Following our own way no matter what you say
We are here and we're here to stay We are here to stay
We are here to stay
We are here to stay
We are here to stay
