# Change The Weather

## Underworld

Look at these eyes, admit that you're killing me
But you can never see the damage that you do
Look at this fool, in tears on his stupid knees
You treat me like disease, how can I please you?
I'd change the weather, I'd change the weather for you now
I'd change the weather, I'd get down on my knees and pray for you
I'd change the weather, I'd change the weather for you now
I'd change the weather, I'd get down on my knees forever
And if I could, I'd kiss you and run away
Now shut your mouth and pray it's something that I'll do
But I'm a fool, a magnet to your vicious words
To you, I look absurd but I'm in love with you
I'd change the weather, I'd change the weather for you now

I'd change the weather, I'd get down on my knees and pray for you
I'd change the weather, I'd change the weather for you now
I'd change the weather, I'd get down on my knees forever
I'd change the weather, I'd change the weather for you now
I'd change the weather, I'd get down on my knees and pray for you
I'd change the weather, I'd change the weather for you now
I'd change the weather and get down on my knees forever
Hey, hey, get me down on my knees forever
Hey, hey, get me down on my knees forever
Get me down, get me down on it
Get me down, get me down right here
Get me down, get me down on it
[Incomprehensible]
