

We Gonna Take U Back / Don't Leave Me

Blackstreet

What we gonna do right here is go back.
Way back. back into time.No baby (3x)
No, no, noIf you take your love away from me
I'll go crazy, I'll go insaneNo baby (3x)
No, no, no
No baby (3x)
No, no, noYou've got your problems baby
And I've got mine
Let's just spend it all by putting it together, yeah
When you say you love me it don't mean a thing
If you care, you'll be there, like you used to be, yeah
I'm searching for the words to make you realize
That I really, really want you to stay, oh
Tears of frustration I hold inside
But if you walk away
You'll make this grown man cry1 - don't leave
Don't leave me girl
Please stay with me tonight
Don't leave me girl
Please stay with me tonightForget my pride girl, I beg you
You're my heart, you're my soul
You've got so much control
My love runs deep within the ocean and sea
But if you sail away
You'll take a center piece of meRepeat 1(no, don't go)Repeat 1Stay, stay, stay
Stay right here with me forever
Stay, stay, stay
Stay right here with me foreverIf you take your love away from me
I'll go crazy, crazy, crazy, insaneIf you take your love away from me
I'll go crazy, I'll go really crazyIf you take your love away from me
I'll go crazy, I'll go really crazyStay, stay, stay
Stay right here with me forever
Stay, stay, stay
Stay right here with me foreverNo baby, no baby, no baby
