

I Don't Even Know Who

Little Green Cars

I've always been carried by this band
Your song shadows my song man
I never had a backup plan
You have made me who I amTell me I was wrong
You know that I'd leave it for you
I'd do anything you ask me toDoes my song belong?
Or make you remember about me?
Is there anything left you can see?And I don't even know who
Who I'm singing about anymore
Who I'm singing about anymore
And I don't even know who
Who I'm singing about anymore
Who I'm singing about anymore
I never knew I crossed the line
Hindsight fucks me all the time
You know I'd leave it on demand
One month makes you a new manTell me I was wrong
You know that I'd leave it for you
I'd do anything you asked me toDoes my song belong?
Or make you remember about me?
Is there anything left you can see?And I don't even know who
Who I'm singing about anymore
Who I'm singing about anymoreAnd I don't even know who
Who I'm singing about anymore
Who I'm singing about anymore
And I don't even know who
Who I'm singing about anymore
Who I'm singing about anymoreAnd I don't even know who
Who I'm singing about anymore
Who I'm singing about anymoreAnd I can't even tell who
Who I'm singing about anymore
Who I'm singing about anymoreAnd I don't even know who
Who I'm singing about anymore
Who I'm singing about anymore
