Travelling Shoes

Jack Carty

My dear old friend, I hope you will forgive
If you feel left alone, if you feel left aloneWe had been friends for too long
To be anything but that
And that's a thing I should have knownA funny couple we must have seemed, you and I
I was trying so hard to fall in love with youBut you had your travelling shoes already on
While I was so obviously still wearing her tattoo...My dear old friend, I hope you will forgive
If you're running from me, then please don't run too farWe've been friends for too long
To ever let that go
So I hope, this is still what we are...
